French Conversational Practice

Recent and classic award-winning feature-length French films (comedies, dramas, thrillers) provide the basis for vocabulary expansion, in-class discussion and debates, and an increased understanding of various French cultural and historical issues, including immigration, WWII, regional differences, and religious conflict. Class time will maximize speaking opportunities.

Grading is based on in-class participation, presentations, and oral and written exams. NOTE: Students are required to watch the films outside of class (online streaming).

Prerequisite: F250, F265, or equivalent placement test score.
