Section 1: French Linguistics Program Guide

Introduction to Areas of Study

The Graduate Program in French Linguistics at Indiana University, the oldest such program in the United States, offers a wide variety of courses in French Linguistics and provides access to countless related courses in departments such as Linguistics, Second Language Studies, Speech and Hearing Sciences, Psychology, and others. For the graduate students who have financial support from our department, please note that the fee remission only covers courses that are directly related to graduate degrees within the College of Arts & Sciences.

Below are some of the areas in which our faculty conduct research and offer courses:

1. Structure of the Language (descriptive and theoretical approaches): phonology, morphology, syntax, semantics, lexicology
2. Sociolinguistics and Dialectology: language variation and change, varieties of French outside France, bilingualism, minority languages of France, norms, standardization, pidgin and Creole studies
3. Language contact: areal linguistics, language attrition, endangered languages, French-based pidgins and creoles
4. Second Language Acquisition:
   a. theoretical approaches to SLA
   b. pedagogical applications: foreign language methodologies, materials development (including computer-assisted instruction)
5. Applied Linguistics: language pedagogy, language attrition, language policy, lexicography
6. History of the Language: origins and development of the French language, structure of Old and Middle French, structure of Old Occitan, theoretical approaches to language change

I. Degrees and Requirements

This document has been compiled as a reference guide and resource for graduate students in the Department of French and Italian. However, for the purposes of degree conferral, the University Graduate School recognizes ONLY the University Graduate School Bulletin. Students are automatically evaluated using the bulletin in effect at the time of matriculation but may request to use a later bulletin. Degree completion is evaluated based on the approved version of the Graduate Bulletin in its entirety; degree requirements cannot be mixed and matched across different versions of the bulletin.

For full information on Graduate School policies, please consult the Indiana University Graduate School Bulletin online at the following URL:
graduate.indiana.edu/academics-research/bulletin.shtml

Grading Policy

Graduate courses at Indiana University use the same grading scale as undergraduate courses, from A to F. Yet, students should be aware that a grade of B- or higher is required in order to earn graduate credit. Furthermore, grades obtained in graduate school are to be interpreted as follows:
1. Grades A+, A, A- are given when the student’s performance in the course is of a quality expected of an MA student who shows potential for doctoral studies or a PhD student.
2. Grades B+, B, B- are given when the work done is appropriate for an MA student, but is not of the quality expected of an MA student who shows potential for doctoral studies or a PhD student.
3. Grades below B- are given when the work is not of the quality expected of graduate students in the program.

MA in French Linguistics

The Degree
The MA degree in French linguistics can serve as a stepping stone to the PhD and can also prepare students to teach in private high schools and junior colleges or to work in other fields such as software development, translation, publishing, government, or business. A candidate can obtain the MA in two years. Up to eight hours of transfer credit may be counted toward the degree with the approval of the Director of Graduate Studies and the Graduate School. Courses used to fulfill requirements for an MA degree completed elsewhere cannot be transferred while the student is in the MA program but may be counted later toward the PhD (see below).

MA Degree Requirements
- 30 credit hours of graduate work with at least 20 hours in FRIT-F linguistics courses.
- Required courses as outlined below
- Reading proficiency in a language selected from the following list: a modern Romance language other than French (Haitian Creole may count), a regional/minority language of France, German, Russian, Latin, or Classical Greek. For further details, see Language Requirements.
- Written examinations in two areas of French Linguistics
- No thesis.

Language Requirements
Reading proficiency is normally demonstrated either by exam (consult the appropriate department for details), by completing the second half of the appropriate graduate course series (FRIT-M 492, HISP-S 492, GER-G 492, CLAS-L 400, LING-C 502, etc.) with a grade of B or better, or by successfully completing a graduate course taught in the language. The language selected for the MA may count toward the PhD requirement. For Gallo-Romance languages like Occitan and Picard and regional languages like Breton, reading proficiency is normally demonstrated by successfully completing F581. For specialists in the history of French, we highly recommend the study of both German and Latin (in addition to the Romance language). Please note that the credits for FRIT-F 581, CLAS-L 300 and L 400, and LING-C 501 and C 502 count toward the 30 hours of MA or the 65 hours of PhD coursework. The 491-492 sequence, regardless of language, does not carry graduate credit, but can be covered by the fee remission. Upon attaining proficiency through any means other than coursework, please have the relevant department verify completion by sending a memo to the Graduate Student Services Coordinator.

Coursework
The first two years of the MA/PhD program are critical for acquiring basic analytical skills. The following courses are required for the MA.
**Required Courses: (Total = 25 credit hours)**

a) F572 Practicum in College French Teaching (1cr.) (required for all AIs)
b) F573 Methods in College French Teaching (3cr.) (required for all AIs)
c) One of the following three courses:
   a. F574 Thème et Version (3 cr.)
   b. F578 Contrastive Study of French and English (3 cr.)
   c. F581 Structure of a Regional Language of France (3 cr.)
d) F580 Applied French Linguistics (3 cr.)
e) F576 Introduction to French Phonology (3 cr.)
f) F577 Introduction to French Syntax (3 cr.)
g) F579 Introduction to French Morphology (3 cr.)
h) F582 Introduction to French Semantics (3 cr.)
i) F603 History of the French Language I (3 cr.)

**Note:** If planning on continuing to the PhD after the MA, we advise students to begin enrolling in F875 starting with the first MA semester.

Electives may be chosen from advanced courses in French Linguistics or from appropriate courses in other programs and departments.

**Note:** An AI who fulfills all of the course requirements in the normal way will have 25 hours in French rather than the minimum 20. If, however, a student is able to exempt one or more of the French courses due to comparable coursework at another institution, only the 20-hour minimum is required. Such exemptions might, for example, allow the student to take additional relevant courses in the Linguistics or Second Language Studies Departments.

**Advanced Courses in French Linguistics:**

- F581 Structure of a Regional Language of France*
- F604 History of the French Language II
- F670 Advanced French Phonology
- F671 Advanced French Syntax
- F672 French Dialectology and Sociolinguistics
- F673 Topics in the Learning and Teaching of French
- F675 Studies in French Linguistics (topics vary)
- F676 Structure & Sociolinguistic Aspects of Haitian Creole and Haitian French
- F677 French Lexicology & Lexicography
- F678 Advanced French Morphology
- F679 French-Based Pidgins and Creoles
- F680 Bilingualism and Language Contact in Francophonie
- G611 Romance Linguistics (as available)

* F581 will not count toward the five 600-level course requirement in the PhD program, but can fulfill the Romance language or regional/minority language of France requirement.

**Suggested Courses in General Linguistics:**

a) Theoretical Linguistics:
L541 Introductory Phonetics  
L542 Phonological Analysis  
L543 Syntactic Analysis  
L614 Alternative Syntactic Theories  
L641 Advanced Phonetics  
L642 Advanced Phonological Description  
L643 Advanced Syntax

b) Sociolinguistics & Historical Linguistics:

L520 Sociolinguistics  
L530 Introduction to Historical Linguistics  
L620 Advanced Sociolinguistics  
L625 Bilingualism & Language Contact  
L636 Pidgin and Creole Linguistics  
L670 Language Typology

c) Courses in Computational Linguistics (e.g., L545, L615, L645)

d) 700-level seminars in various areas

Suggested Courses in Second Language Studies

S511 Second Language Syntax  
S512 Second Language Phonology  
S532 Foundations of Second Language Acquisition  
S533 Second Language Acquisition Research Design  
S536 Research in Second Language Pedagogical Contexts  
T539 Pragmatics and Second Language Learning  
S605 Second Language Processing  
S632 Current Research in SLA  
S640 Discourse Analysis  
S660 Contrastive Discourse  
S670 Language Typology  
700-level seminars

The MA Examination

I. MA Exams

Candidates for the MA degree must sit for two written exams. Students must select one area from Group A below and one area from Group B:

Group B: Phonology, Syntax

To be admitted to the PhD program, the student must select from the first two areas in Group A; that is, excluding Pedagogy/Second Language Acquisition.
To qualify for the Master’s exams, students must have completed all courses previously taken. Specifically, students with Incompletes will not be allowed to sit for the exams. One essay of one exam must be written in French. For native speakers of languages other than English one essay of one exam must be written in English. The exams are given twice yearly, upon request, in August and in January.

The Graduate Student Services Coordinator maintains and makes accessible a file of the exams given at the three most recent sittings.

All students must take their MA exams no later than the spring semester of their second full academic year on campus, although rare exceptions may be made on a case-by-case basis. Alships cannot be renewed for the following year unless the student has been admitted to the PhD program (see below). Students must signal their intent to sit for the examination and the fields in which they wish to be examined to the Graduate Student Services Coordinator no later than 60 days prior to the exams. When indicating their choice of fields, MA candidates should also indicate in which field they will write their French essay. Non-native English speakers should indicate which essay they will write in English. The examination is given in two parts, each 2.5 hours in length, on the first or second Saturday after the first day of classes of the semester. In order to pass the examination, the candidate must attain a grade no lower than 1 in any field. Should a candidate fail any part of the examination and wish second consideration for the degree, they must retake that (those) part(s) during the following semester at the regularly scheduled examination time; the exams may not be retaken more than once. No MA degree can be awarded unless a passing grade is achieved on all parts of the exams.

A student who fails the MA exams will no longer be guaranteed funding. If the student retakes and passes the MA exams in a later session they may be reconsidered for funding in a future semester. The student’s candidacy for funding will be evaluated along with those of new students being admitted to the program for the first time.

MA Exam Grading System

- 0: non-passing
- 1: sufficient performance for the award of an MA
- 2: sufficient for admission to the PhD
- 3: remarkable exam

*An average of 2 is required for admission into the PhD (with no non-passing exam)

**Note:** After passing the MA exams and fulfilling all requirements presented above, please see the Graduate Handbook for information on applying for the MA degree. It is NOT automatically awarded.

### II. Admission to the PhD program

Admission to the PhD program is based on the student’s performance in three areas: (1) the first three semesters of MA coursework, (2) the written MA exams (an average grade of at least 2 and no grade lower than 1), and (3) the student’s research preparedness based on the research statement and the PhD admission interview (see description below).

Any student who seeks admission into the PhD program in French Linguistics must submit a two-page research statement. This document is due at the beginning of the MA written exams. The document submitted will include the following elements:
• a description of an interesting research question (e.g., linguistic data that challenge well-established generalizations, new data that raise questions about previous analyses, interesting data that have never been analyzed, etc.), including a clear statement about what makes the issue in question interesting
• a brief review of the literature on the question
• ideas about how one could proceed to investigate the question and develop an analysis
• a third page for bibliographic references

Students are encouraged to consult with faculty members about the appropriateness of the question that they wish to discuss, literature that they should review, and their ideas for making a contribution on its analysis. Faculty will NOT read drafts of students’ statements, but they are happy to provide guidance on their preparation.

Examples of successful research statements can be seen in Canvas at https://iu.instructure.com/courses/1714123/files/folder/Fr%20Ling%3A%20Useful%20Docs/Research%20Statements, or can be requested from the Graduate Student Services Coordinator.

**Note:** This research statement does NOT constitute a draft of a dissertation proposal and does NOT bind a student to the specific research topic described.

The research statement will be evaluated by the French Linguistics faculty. The student’s preparedness for conducting research at a level that is expected of doctoral students in French Linguistics will be determined. If the Faculty determine that sufficient promise for doctoral studies has been demonstrated, the student will be invited to discuss the research statement and their research interests at an oral interview that will take place within a month following the MA exams. The interview will last approximately 45 minutes. After the interview, the faculty will confer to determine whether the student will be invited to continue to the PhD. Please note that the decision about admission into the doctoral program made by the faculty is final; specifically, there is no possibility of resubmitting a research statement in case the faculty decides not to invite a student to the oral interview, and there is no possibility of a second interview if the faculty decide not to admit a student into the doctoral program.

After the invitation to continue to the PhD is extended, all students are strongly encouraged to meet with the individual faculty members to discuss their performance on the written and oral exams and to plan future work.

**Time Limit**
The requirements for the MA degree must be completed within five consecutive years. All transfer credits must also be completed within five years. For example, if a student first enrolls in the program in Fall 2018, then they must finish all requirements for the degree (including course work, language requirements and exams) by December 2023. Revalidation of coursework completed before this five-year period is possible in exceptional cases (see the Graduate School bulletin).
Mentors
During their first semester on campus, students will be assigned a peer mentor, that is, a doctoral student in our program with similar interests who can help the new student find his or her way, answer questions or provide informal advice. New students are also invited to choose a faculty mentor whose role is to serve as informal academic advisor, providing additional support beyond that offered by the Director of Graduate Studies (DGS). The DGS will facilitate selection of mentors.

PhD Fast-Track in French Linguistics
A student who already holds an MA degree from another institution in a closely allied field (e.g. general linguistics, Romance linguistics) may apply for the PhD fast track. If accepted in this track, the student will generally take course work at the MA level for the first year (two semesters) in our program, and then submit the research statement and sit for the oral interview to complete their application to the PhD program. A student accepted in the fast track is not required to sit for the MA exams in our program, having already successfully completed a relevant MA elsewhere. Upon successful completion of the oral interview, the student will be formally admitted to the PhD program. All coursework completed in the first year of study will count towards the PhD degree and the student will be permitted to request a transfer of relevant coursework from the previous MA degree.

PhD in French Linguistics
The Degree
The PhD program is intended to train scholar-teachers to do advanced research of professional quality in their specific field and to teach French linguistics and language courses at all graduate and undergraduate levels. Students are encouraged to take many different courses in order to discover areas of special interest, acquire the background necessary for the exams, and prepare for a dissertation as well as a career. Up to 30 hours of transfer credit may be counted toward the PhD degree with approval of the DGS and the Graduate School. (For information on admission to the PhD program, see above.)

PhD Degree Requirements
- 35 credit hours of graduate course work beyond the MA for a total of 65 credit hours of course work.
  - Four courses in French linguistics at the 600-level (excluding F603)*
  - 12 credit hours in the minor, either Linguistics (excluding L503) or Second Language Studies (see appropriate department for minor requirements). Other minors are possible with permission of the Director of Graduate Studies.
- 25 thesis hours (F875).
- Als must complete F572 and F573 if they haven’t done so already.
- Reading proficiency in two languages as follows.
  - German or Latin
  - A Romance language, a regional/minority language of France, or Haitian Creole
- PhD examinations (see below)
- Dissertation
For a list of our advanced courses, see the MA Coursework section above.

**The PhD Examination**
The PhD qualifying examination is normally taken after fulfilling all course requirements and prior to beginning work on the dissertation. To qualify for the PhD exams, students must have completed all courses previously taken. Specifically, students with Incompletes will not be allowed to sit for the exams.

The doctoral examination process is made up of two (2) cloistered General Exams, three hours each in length, and one (1) Research Exam, to be completed over a period of one week with access to research materials. Selection of the examination areas will be made in consultation with the student’s PhD advisory committee. The exams will normally be taken no later than the second semester of the fourth year of study. The General Exams (cloistered) may be taken in January or September; the Research Exam must be completed during the same semester as the General Exams.

I. **General Exams:**
Students select one area from Group A below and one area from Group B. These exams are designed to demonstrate that students have acquired broad knowledge in the field of French Linguistics. Exam answers should contain exposition and argumentation demonstrating that the candidate is well qualified to teach graduate and undergraduate courses beyond their narrow specialization. General preparation includes coursework beyond the MA level (usually 600-level courses in FRIT or related departments), reading beyond coursework, and review of previous exams. As exam questions will in part be tailored to the student’s particular background, candidates should consult early on (i.e., as soon as they have selected their areas) with faculty members specializing in the exam areas.

**Group A:** Lexicology/Lexicography, Language Contact, History of French, Sociolinguistics & Dialectology, Applied Linguistics/Methodology

**Group B:** Phonology, Morphology, Syntax, Second language acquisition

**NB:** Students interested in taking an exam in Applied Linguistics/Methodology in Group A should consult with the Director of Graduate Studies about relevant coursework.

The General Exams shall be written in English; a student may make a special request to the faculty to write in French.

II. **Research Exam:**
This exam is designed to demonstrate that students have developed sufficient depth in a particular constellation of research questions and that they are ready to begin work on their dissertations. The area of this exam corresponds to the area of the student’s projected dissertation topic and will be distinct from those of the two general exams. The particular question to be addressed, which will reflect the student’s research interests, will be assigned at the beginning of the one-week period during which students write the exam. The Research Exam must be written in English.

The Research Exam will normally culminate in an essay which:
(1) Provides the intellectual background and justification for scholarly attention to the topic, including what is known about the problem from previous work (i.e., a critical review of the literature on the topic) and identifying unresolved questions or new questions that emerge from this work; and

(2) In a preliminary but sophisticated way, lays out the basic outlines for a study researching these questions, saying enough about a methodology to reveal that the student has given serious thought to the topic and has identified appropriate strategies for data collection and analysis.

As a general rule, the target length is a 30-40 page (double-spaced) essay, with a brief introduction and a conclusion in which the essential aspects of the proposal are highlighted. In this essay, the emphasis should be placed on defining the issues and reviewing existing literature. 75% of your essay should be devoted to the identification of the research question and a critical review of the literature; the remaining 25% should focus on laying out a new study that will contribute new knowledge on the issue. References (required) and appendices (if relevant) do not count toward the 30-40 page target length.

In preparation for the General Exams, students are advised to review coursework and course bibliographies (including background and enrichment material), and to consult faculty members in each of the chosen fields. Preparation for the Research Exam will naturally be carried out in even closer cooperation with a faculty member, who will usually later serve as the student’s dissertation advisor.

The department maintains and makes available to students a file of the General Exam questions given at the three most recent sittings.

Examples of Research Exam questions can be found in Canvas at https://iu.instructure.com/courses/1714123/files/folder/Fr%20Ling%3A%20Useful%20Docs/PhD%20Research%20Exams, or can be requested from the Graduate Student Services Coordinator.

The General Exams are given twice yearly, upon request, in August and January. Students must signal their intent to sit for the General Exams and the fields in which they wish to be examined to the Graduate Student Services Coordinator no later than 60 days prior to the examination. At this time, they will also make arrangements with the advisory committee members for the timing of the Research Exam, which will take place later in the same semester.

III. Evaluation of exam results:

Each of the two (2) cloistered General Exams is assigned a grade of Pass or Fail.

1. A student must pass both cloistered exams, as well as the Research Exam, in order to be admitted to PhD candidacy. If a student fails a cloistered exam, they may retake it (in its entirety) during the next semester’s scheduled exam session; the exam may not be retaken more than once.

2. The Research Exam is graded Pass/Fail by the Committee of the Whole French Linguistics Faculty. A Research Exam that has not received a passing grade can be retaken once, either during the same semester or during the following semester.

3. Students who fail the PhD exam may be placed on academic probation. They will have their funding continued (up to the limit of their funding commitment) if they retake the exam within the prescribed time frame.

### III. Exchange Positions Abroad

When there is an interested and qualified applicant from among the graduate students in French, as well as an interested student from the French university, the Department offers teaching exchange programs with the University of Lille. Exchange instructors teach English in France for one academic year, which is counted as a year of Departmental funding (AIship). Stipends and teaching assignments of the positions vary. Only native English speakers will be considered for such positions. The Graduate Student Services Coordinator has more detailed information about these exchange positions.
Selection Criteria
Exchange positions are awarded to interested graduate students who wish to further their professional development (French language improvement should NOT be a primary goal). When there are more interested applicants than positions available, seniority, as well as the following guidelines, will be used in selection.

- Students should express a sincere commitment to finishing their PhD in the Department.
- Students who have already experienced a similar exchange year through IU or another institution shall not be considered for an exchange position unless the number of applicants is equal to or fewer than the number of positions available.
- All other considerations being equal, academic records and teaching performance may be used as selection criteria.
- Students may submit to the chair a written request to be given priority for a certain year due to unique or unforeseen circumstances.

Application
Students who are interested in participating in one of the Department’s exchange programs should contact both the chair and the DGS in November of the year prior to the planned exchange year. (The Graduate Student Services Coordinator will send out a reminder.) There is no formal application process, but students will be asked to write a brief letter explaining how the exchange experience would fit in with their professional preparation and (possibly) dissertation research.
Section 2: Department of French and Italian Graduate Handbook

Introduction

This portion of the graduate student guidelines for the Department refer to administrative matters common to all of our graduate programs. The specific program guidelines (above), the Graduate School website and bulletin, and the College of Arts and Sciences website are essential resources for you as a graduate student. However, the French & Italian staff are ready to help you navigate your student career successfully. Below you will find a description of each office staff position to better guide you throughout the year.

The Department Administrator, Isabel Piedmont-Smith, serves as departmental fiscal officer (all financial accounting), handles the course scheduling, supervises the other office staff, and serves as personal secretary to the Chair. Other duties include assistance with faculty hiring, tenure, and promotion, and overseeing all human resource functions of the Department. The Department Administrator also maintains the departmental email distribution lists, edits the annual alumni newsletter, arranges guest speaker visits, and coordinates departmental awards and fellowships.

The Graduate Student Services Coordinator, Lauren Anderson, addresses graduate student concerns such as academic status, language proficiency, financial support, registration procedures, fellowship applications, and graduate admissions. She also helps compile the departmental statistics, administers the Career Placement Service, and serves as departmental payroll clerk.

The Faculty and Undergraduate Services Coordinator, Lisa Huffman, is the webmaster, serves as a resource for undergraduate students with regards to departmental and university procedures and policies, and assists with faculty travel and financial transactions. She is also responsible for updating the departmental Facebook page, submitting on-line course descriptions, as well as ordering textbooks and office supplies.

Departmental office hours are 8:00 am to 5:00 pm Monday through Friday. If it is necessary for staff to be absent during regular hours, we will try to give Department members as much advance notice as possible through email.

General Office Procedures & Graduate Student Resources

Graduate Student Workstations: Five tables have been designated for graduate student use in the FRIT wing of GISB. Six workstations are equipped with computers and access to printers. The lockers near the graduate student workstations will be assigned to AIs for storage, and an access code will be provided.

Note: The computers at the graduate student workstations function just like any public computing site. Please do not save any documents to the hard drives and be sure to log off when done. Additionally, do not leave computers unattended without locking them, as this could compromise student data.
Kitchenette: A kitchenette containing a refrigerator and microwave is available in the area labeled 3155 of the FRIT wing of GISB. All contents in the refrigerator should be labeled with the name of the owner; if an item is to be shared, label it with “FRIT”. Please be sure to throw out old and unwanted items, including those brought in to be shared.

Departmental Envelopes and Stationery: Sheets of Departmental letterhead stationery and corresponding envelopes (or other stationery supplies) for letters of recommendation or job applications are available in the file cabinet located beside the Graduate Student Services Coordinator workstation. It is normally locked, but one of the staff can unlock it for you.

Mail: Mail is picked up and dropped off in our mail room, GA 3151, once a day. Campus mail envelopes are available in the mailroom and from the staff. Mailboxes should be checked regularly for mail and departmental communications. The Department of French and Italian strongly urges all graduate students who will be away from campus for an extended period of time to fill out a “change of address” form at the local post office to notify all organizations and individuals who correspond with them of their address change.

Address Changes: It is vitally important to keep both the departmental Graduate Student Services Coordinator and the Office of the Registrar informed of any change of permanent, local, or e-mail address. The Department needs an accurate address for important communications relating to registration, requirements, funding, and other issues. The Office of the Registrar is the primary record-keeping body of the University, where address changes must be made. Addresses must be current with the Registrar for the obvious reasons of registration and billing, as well as any correspondence from the Graduate School or College Graduate Division.

See studentcentral.indiana.edu/personal-information/update-information/address.shtml for more information.

Faxes: FRIT uses IU Fax Service, which routes faxes through email rather than a traditional phone fax system. Students may receive a fax at any time: our fax number is 812-855-8877, and the document should clearly have your name on it. Staff will forward the document to you via email (so if it’s confidential, you may want to reconsider). Sending a fax from the office is only possible under circumstances related to graduate studies; please check with the Department administrator. To send or receive a fax, please see staff for assistance.

Email Distribution Lists: In order to facilitate departmental communication, the FRIT Department maintains email distribution lists. For each of these lists, type “@indiana.edu” after the list name (e.g. fritgrad@indiana.edu). In this list, “permanent” means those faculty who are tenured or tenure-track, or who have a long-term appointment. Please note: only those who are members of a particular list can send an email to that list (e.g. a graduate student cannot send an email to the FRITFACULTY list). If you need to send an email that is pertinent to a list to which you do not subscribe, please contact a FRIT staff member for help.

FRITFACULTY= Permanent, Visiting, and some retired French and Italian faculty
FRITFAC = Permanent French and Italian faculty
FRENCHFAC = Permanent French faculty
FRENCHFACULTY-L = All French faculty, including visitors
ITALFAC-L = Tenured and tenure-track Italian faculty
ITALFACULTY-L = All Italian faculty, including visitors
FRITGRAD = All French and Italian graduate students
FRENCHAIF = All Associate Instructors and faculty teaching French language, plus the Director of French Language Instruction
ITALIANAI = All Associate Instructors and faculty teaching Italian language, all on-campus Italian graduate students, plus the Director of Italian Language Instruction
FRENCHLIT = French/Francophone Studies graduate students and DGS
FRENCHLING = French Linguistics and MAFI graduate students and all French linguistics faculty
ITAL = Italian graduate students and DGS

Office staff are included on relevant email lists. The distribution lists are most often used by the office staff, but they may be used by any faculty or graduate student who has an announcement relevant to the Department. **It is essential that graduate students check their IU email on a regular basis**, as important departmental announcements and messages from staff and Directors of Graduate Studies are communicated in this way.

When posting a message, keep in mind that all email lists require the sender to respond to an automatically generated confirmation message. This is to avoid email spam.

**Note:** Please do not give out the names of FRIT email distribution lists to anyone outside of the Department. If an outside person has a relevant announcement to make, please ask her/him to send it to our departmental email address: fritdept@indiana.edu. Staff will then forward the message at our discretion.

**Departmental Website:** For a wealth of other information, consult the FRIT website. These pages provide crucial information such as program guides, award deadlines, faculty office hours, course descriptions, and links to the Graduate School Bulletin and other web sites of interest. Suggestions for the website are welcome and should be addressed to Lisa.

**Grants and fellowships:** Information about Indiana University Graduate School and College of Arts and Sciences fellowship and award competitions can be found in the Student Portal section of the departmental website. Please also keep an eye out for emails from the Graduate Student Services Coordinator regarding departmental deadlines for many of these awards, which may be earlier than College or Graduate School deadlines. For outside awards, graduate students should consult the GradGrants Center.

**Travel Grants:** Both the College of Arts and Sciences and the Department offer travel grants each year. The College usually has a fall and spring competition with deadlines in late October and mid-April respectively. When a student applies to the College travel grant competitions, the Department will automatically consider those applications for funding as well. Therefore, by applying to the Fall and Spring College Travel Grant competitions, students are also applying to the Department for funding. Only one application, the COAS application, needs to be submitted. In addition, the Department offers a winter travel grant competition that has its own application form. The Graduate Student Services Coordinator will announce this competition and circulate the application form via email. In tandem with these competitions, FRIT also welcomes applications for internal research funds that are needed for purposes other than travel. Information and the application will be distributed by the Graduate Student Services Coordinator. Students interested in applying for travel grants should also check the College Arts and Humanities Institute, the Institute for European Studies, and the Graduate and Professional Student Organization websites for additional competitions.
Career Placement Service: This service is provided to graduate students seeking professional employment, generally in the realm of academia. Through this service the Graduate Student Services Coordinator will compile requested letters of recommendation into one confidential, official placement file, and send this dossier to potential employers upon request. This is a free service but a waiver and release form must be on file to opt into this service. Please see the FRIT website for procedural questions, and check with the Graduate Student Services Coordinator for further information. Career placement files are typically kept for 5 years after graduation or last enrollment and then discarded.

Academic Policies & Procedures

Registration

Continuing student registration begins online (via One.IU) in October for the spring semester and in April for the fall semester. Students are required to consult the appropriate DGS prior to registering for the fall or spring semesters. For summer registration (in March), students are not required to speak with an advisor, but this step is still highly recommended.

Late registration is an expensive and time consuming process that should be avoided. Students are advised to make note of the official academic calendar and enroll during normal open registration periods. Permissions for advanced thesis credits (FRIT-G 901) and special course offerings, such as individual readings (FRIT-F/M 815), should be obtained well in advance to ensure on-time registration. To obtain permission for off-campus sections, the student’s current address should be included with the request to the Graduate Student Services Coordinator, and the address should also be updated through One.IU (search “Address Change,” click “Personal Information”).

Fee Remission

The College provides fee remissions to support the College degree objective of graduate students, but does not cover courses taken in other Schools if they are not related to the MA or PhD degree. Courses outside the College that are related to the student’s degree in FRIT must be approved in advance by both the DGS and the College Graduate Office, and the number of allowable credits may be restricted. Students may not use College fee remissions to pursue degree objectives in other schools. The College will not provide tuition support for second doctoral minors if they involve course work outside the College.

If seeking a minor or taking related courses outside the College, please confirm the most up to date policies with the Graduate Student Services Coordinator in order to ensure such courses are eligible to be covered by the fee remission.

Student Disabilities

The Department of French & Italian works closely with the office of Disability Services for Students (DSS) to provide accommodations to students with learning and/or physical disabilities. If seeking accommodations, a student must register for services with DSS, provide appropriate documentation to verify their disability, and then meet with a DSS staff member. DSS then prepares an Academic Accommodation Memo, which the student should take to a face-to-face meeting with each professor. In order for professors to make appropriate and adequate accommodations, they must receive such requests by the end of the first week of classes. Students in classes taught by AIs or Visiting Lecturers that fill out the DSS form and submit the required documentation should then
set up a meeting with both the AI and the Director of Language Instruction. AIs should not decide on accommodations on their own.

**Incompletes**

*This section pertains to grades of Incomplete for FRIT graduate students. Associate Instructors should see the section on Departmental Policies & Resources for Associate Instructors for guidance on assigning Incompletes to their students.*

Per the regulations of the University Graduate School and the College of Arts & Sciences, the grade of Incomplete may be given only when the completed portion of a student's work is of passing quality. This regulation does not give students the right to take an Incomplete in any graduate course. Rather, the regulation gives them the right to request an Incomplete from the course instructor if circumstances beyond their control (such as serious illness, serious illness of a close family member, or death in the family) result in such hardship that requiring completion of the course requirements before the end of the semester would be unjust to them.

Graduate students should not assume they can obtain an Incomplete from a professor just because they did not complete their work on time. Similarly, graduate students should not give one of their own students an Incomplete without a documented reason. A student's desire to avoid a low grade is not a legitimate reason to award an Incomplete.

Usually a student must meet with their professor to discuss the reason(s) the student is seeking an Incomplete, show appropriate documentation, and agree on what must be done to remove the Incomplete and in what time frame.

Graduate students in French linguistics who request an Incomplete from a professor should record the details of what they have discussed with the professor regarding eventual removal of the Incomplete on a *FR Ling Awarding Incomplete* form, which can be obtained from the Graduate Student Services Coordinator, and should be signed by the professor and the student. This form, which records the requirements for successful completion of the course and sets a deadline for meeting them, should be submitted to the graduate student services coordinator at the end of the semester or summer term so that there is a departmental record of what the student must do to remove the “I”.

According to university policy, a grade of Incomplete must be removed within one year to prevent it from automatically turning to an F. However, this time may be shortened by the instructor and usually should be. It is reasonable to expect that incomplete work will be made up within the same amount of time (following alleviation of the hardship) as remained in the semester when the hardship occurred. The burden of satisfying the Incomplete is on the student. Students should plan their make-up work well in advance to lift Incompletes before deadlines.

Faculty members (or AIs) are to submit the change of grade eDoc for an incomplete within one month of the date the student has completed the work for the incomplete.

**MA/PhD Reference Exams**

Previous degree exam questions are available from the Graduate Student Services Coordinator for students preparing for MA or PhD exams. Typically, questions from two or three previous exam
sessions can be provided. Sample questions should be used to prepare for the types of questions that will be asked, not as a topical study guide.

Other Common Procedures

Transfer Credit Request
Requests for transfer of graduate credit are completed via a paper form, which can be found here. Coursework from another institution being applied to an IU degree should first be approved by the DGS. Photocopies of the transcript should be attached to the request form. Once the DGS has signed the form, it should be submitted to the Graduate Student Services Coordinator, who will submit it to the appropriate office. Please note: graduate coursework use to fulfill a degree at one institution cannot be counted towards an IU graduate degree of the same level. That is, coursework used to complete an MA degree at another university cannot also be applied to the MA at IU. However, that coursework can be applied towards the PhD. Up to eight credits of transferred coursework can count towards the MA degree. Up to thirty credits of transferred coursework can count towards the PhD degree.

Individualized Minor Request
In certain circumstances, a traditional minor as defined by a department or program may not be the ideal option for a student with particular research interests. In such instances, students—in collaboration with their DGS and a faculty member designated as the minor representative—may request to have an individualized minor program. The minor representative should be knowledgeable in the areas that the individualized minor proposes to cover. The individualized minor request is submitted through the “Request for Individualized Minor” eDoc found in one.iu.edu. The eDoc needs to include a list of courses which may be used to fulfill the minor, a title and description for the minor (including a rationale for why an individualized minor is appropriate), and the number of credits which must be completed to satisfy the minor. Please note: in order to complete the minor, a student will need to complete the number of credits indicated on the form through any combination of courses listed on the form. The student does not need to complete all courses they list on the form. Therefore, listing more courses gives the student more options to complete the minor, and does not commit them to completing all listed courses. The individualized minor request should be completed before the students begins taking courses to complete the minor.

Substitution/Waiver of Program Requirements Request
With the approval of the DGS, a student may submit a “Request for Substitution or Waiver of Program Requirements” eDoc through one.iu.edu in order to have a requirement waived or substituted. If a student is requesting the substitution of a required course with a course taken at another university, that course must have been transferred to IU through the Transfer Credit Request process detailed above. The University Graduate gives final approval on all substitution/waiver requests. Students should be aware that UGS prefers program requirements be substituted rather than waived.

Continuing Enrollment
Graduate students who are ABD (see “Nomination to Candidacy”) are required to be continually enrolled in thesis credit hours until their successfully defended and revised dissertation has been accepted by the University Graduate School. This continuing enrollment requirement is generally for the academic year and not the summer. However, if the PhD candidate plans to graduate during
the summer, they must be enrolled in the summer session during which the degree will be awarded. According to the Graduate Bulletin:

“A candidate who will be graduated in June, July, or August of any year must enroll in a minimum of 1 hour of credit… in either the current or the immediately preceding summer session.”

Note: this enrollment requirement is for the term in which the student graduates, not for the term in which the defense takes place. If the student only defends in the summer, and submits the dissertation in the Fall, they do not need to be enrolled during the respective summer session. However, the student must be enrolled at the time of submission.

ABD students who fail to comply with the policy of continuing enrollment will be compelled to enroll retroactively, and the fees for retroactive registration are substantial.

**Thesis Credits**

All students who intend to pursue the PhD may begin accumulating F/M875 thesis credits from their first semester in the MA program in order to utilize the full extent of the fee remission each semester. A student must obtain 25 of these credits to complete the PhD degree. F/M875 credits correlate with preparation for the PhD dissertation, but they may not reflect actual time spent on research and other preparation during a given semester. They should be considered as a whole as time spent reading supplementary texts, consulting with faculty, and doing preliminary research and planning over the course of a student’s first two or three years in the graduate program. Thereafter, these credits should have a more direct correlation with the amount of time spent preparing the dissertation.

Once students have accumulated a total of 90 credit hours toward the PhD degree (65 course work + 25 thesis hours F/M875), they may enroll in G901, which is six credit hours but only costs a flat fee of $150 per semester. Students are limited to 6 semesters of G901. If they are still working on the dissertation thereafter, they must enroll in a minimum of one credit hour of F/M875 each semester.

**Leave of Absence:**

Students may take a leave of absence from our program as per the guidelines of the College of Arts and Sciences. Leave may either fall under Family and Medical Leave Act guidelines or may be granted for other reasons. The College will grant no more than 24 total months of leave. However, the Department will not normally grant leave for a period of longer than one year. A request for a longer leave must be re-petitioned to the Department. Decisions regarding funding, exam timelines, and completion of Incompletes should be agreed upon prior to taking leave, and put into writing in the student’s file.

If a student is on leave and plans to resume teaching duties in the fall semester, they must inform the Department in writing by February 1 of the preceding spring term.

**Time Limits**

All course work and language requirements necessary for the PhD degree must be completed within seven years prior to successfully completing the PhD qualifying examination. This time limit is also applicable to MA coursework and any transfer credit counting towards the total 65 credit
hour requirement. Revalidation of course work completed earlier than seven years before the examination is possible in exceptional cases (see the Graduate School bulletin).

The dissertation must be completed, successfully defended, and submitted to the University Graduate School within seven years after passing the PhD qualifying examination. Failure to meet this requirement will result in termination of PhD candidacy. Reinstatement to candidacy is a laborious process requiring a re-take of all or part of the PhD qualifying examinations. It is to be avoided at all costs.

**Academic Probation**

Failure to make adequate academic progress can lead to a student being placed on academic probation. Having a GPA below 3.0 and/or three or more grades of Incomplete is likely to lead to a student being placed on probation, as is failing an MA or PhD exam. The College of Arts and Sciences Dean's Office recommends probation, but the Department (DGS and Chair) makes the final determination, as well as determining what the student must do to be removed from probation and return to good academic standing. The funding (AI or other academic position) may be discontinued for students on academic probation.

At the PhD dissertation level, academic probation may be recommended by the dissertation Chair if there has not been adequate progress on the dissertation, or at minimum ongoing communication about plans for completion.

**Graduation**

MA students must apply for their Master's degree through the Master's Application for Advanced Degree eDoc on One.IU. This form should be completed at least six weeks before the desired date of graduation. MA degrees are granted monthly on the last day of each month, except in May, when the degree date is the same as the date of commencement. Students should apply for the MA during the semester in which they are finishing the degree requirements. That way there is no delay between completion of requirements and conferral of the degree. If the student wishes to participate in the commencement ceremony, the MA application must be submitted by the second month of the semester (September or February).

PhD degrees are granted monthly. Initial submission of the completed dissertation, as approved by the Research Committee, must be done electronically, to the University Graduate School by the 15th of the month (except in May and December, which have an earlier deadline). The UGS may require additional formatting changes, all of which must be submitted to the UGS by the 27th of the month in which the degree is to be awarded. In addition, all grade changes for the student (e.g. changing “R” grades to “A”) must be submitted by the 27th of the month. If the 27th falls on a weekend, the deadline will be the Friday prior. Failure to satisfy all these requirements will delay awarding of the PhD degree to the following month. Should the PhD Recorder in UGS discover any problems, degree conferral may be postponed.

**Commencement**

IU holds two commencement ceremonies each year, in May and December. Students who complete their degree requirements in January - August may participate in the May ceremony, while students who complete their degrees in September - December may participate in the December ceremony.
Both MA and PhD students who wish to participate in commencement ceremonies must apply several months prior to the ceremony. For the MA, the application is the same eDoc as for the MA degree. Watch for the deadline via email, or check with the Graduate Student Services Coordinator for more details on applying for commencement. Commencement registration is done with the appropriate recorder at the Graduate School and is NOT automatically assumed when the application for the MA degree is processed or when the PhD dissertation is received. The Graduate Student Services Coordinator has the most up to date commencement registration procedures.

Steps Toward PhD Completion

1. Advisory Committee
Within three months of admission to the PhD program, doctoral students should select an Advisory Committee from among the faculty in their field of interest (two members from the major field and one from another, potentially the minor field). The Advisory Committee is appointed through the submission of an eDoc, which can be found here. Although the composition of a student’s Advisory Committee is often similar to that of their later research committee, the purpose of the two committees is very different; therefore, they are NOT the same. That is, the composition of an Advisory Committee does not commit a student or faculty member to a research committee.

Students are strongly encouraged to establish their advisory committees as quickly as possible after being admitted into the PhD program. The advisory committee is intended to guide the student until they have passed the qualifying exam. Students usually take their qualifying examination during their third or fourth semester in the PhD program (see Program Guide for details). After a student passes the PhD qualifying exams in their entirety and completes all 65 credits of coursework and degree requirements, they may apply for PhD candidacy.

Two different committees to advise graduate students:
1) PhD Advisory Committee
   a. Must be formed within three months of acceptance to the PhD program
   b. Guides the student’s studies until Nomination to Candidacy
2) Research committee
   a. Reads and approves dissertation proposal and the completed dissertation itself
   b. Judges the dissertation defense. Should be appointed after the candidate successfully proposes a research project, must be appointed no later than six months prior to the defense date.

2. Nomination to Candidacy for the PhD Degree
Students apply for PhD candidacy by filling out the “Nomination to Candidacy for PhD” eDoc in One.IU. To file for PhD candidacy, the student must have completed all course work (excluding required F/M875 credits), fulfilled the Departmental language requirements, and passed the PhD exams.

The student should ask the departments through which they fulfill the language and minor requirements to send memos to the FRIT Graduate Student Services Coordinator as documentation. For the minor, the memo should list the courses that count towards it, the grades obtained, and the credit hours.
The 25 required thesis hours (F/M875) need not be completed before candidacy can be granted. That is, F/M875 thesis hours may be accumulated after candidacy is approved. However, to enroll in G901 thesis hours, for which there is only a $150 flat fee, the 25 credit hours of F/M875 must first be completed. AIs should plan to accumulate their 25 thesis hours of F/M875 while they still have financial support; otherwise they will have to pay the regular non-resident or resident tuition fees from their own pocket.

The eDoc will route to the Graduate Student Services Coordinator, Director of Graduate Studies, minor department representative, the Chair of the advisory committee, and the University Graduate School. Once the Dean of UGS approves the eDoc, the student will be admitted to candidacy and awarded a Certificate of PhD Candidacy. PhD candidates are sometimes referred to as ABD students (meaning that they have finished their requirements, All But the Dissertation).

After successfully completing the PhD qualifying examination, students must be continually enrolled in thesis credit hours until the completed dissertation is accepted by the Graduate School. See “Continuing Enrollment” and “Thesis Credits” under Academic Policies and Procedures.

3. Dissertation Proposal and Nomination of Research Committee

As early as possible in the PhD program, the student should begin to work more closely with faculty members who will eventually form the Research Committee which will read and evaluate the dissertation. The Research Committee may or may not be comprised of the same members as the Advisory Committee.

After passing the PhD qualifying examination, the candidate will approach a member of the faculty appropriate to the field in which the student wishes to do their dissertation to request that the faculty member act as dissertation director. This person will normally be a member of the student’s existing Advisory Committee and will already have worked very closely with the student in preparing for the PhD qualifying examination. The dissertation director must be a member of the graduate faculty with endorsement to chair doctoral committees and will be the primary advisor for the student as dissertation work progresses.

Next, in consultation with the dissertation director, the candidate will approach at least three other members of the faculty, two from the major department and one representing each minor, to invite them to serve on the research committee and to present them with a copy of the dissertation proposal. Generally, a research committee is comprised of four or five members. All members of the research committee must be members of the graduate faculty; at least half must be members of the graduate faculty with endorsement to chair doctoral committees. External members from institutions other than IU may be approved but must be in addition to at least four internal members, and a CV and rationale for their inclusion must be submitted. If an external member is being considered, please see the Graduate Student Services Coordinator to check on current policies and procedures.

During this process, the candidate will begin preparing a dissertation proposal in consultation with the dissertation director. The proposal should contain the following elements:

1. an outline in some detail of the project in view
2. a review of the relevant literature
3. a discussion and partial development of the research questions to be addressed
4. the proposed organization of the dissertation
5. a timetable for completion
In the case of experimental dissertations and dissertations based on fieldwork to be conducted by the student, a pilot study is conducted and reported on in the proposal.

A proposal is ready when the dissertation director has determined that, in their opinion, the proposed project is viable and will make an original contribution to knowledge, and that the student has the adequate background to carry out the project. When the dissertation advisor has determined that the proposal is ready, copies are circulated to each member of the proposed research committee.

**Acceptance of the Dissertation Proposal**

*French Linguistics*: The dissertation proposal defense, which lasts about 1 ½ to 2 hours and is intended to provide the student with constructive ideas for pursuing the dissertation research, is generally held about four weeks after the proposed research committee members have received the dissertation proposal. After the dissertation proposal has been successfully defended, the Dissertation Proposal Committee and Proposal Approval form is signed by all committee members and submitted to the Graduate Student Services Coordinator for recording in the student's file. This is a form unique to the French linguistics graduate program which the DGS or Graduate Student Services Coordinator will provide.

*Italian Studies*: After the intended Research Committee members have read the proposal, the candidate may be asked to meet with them to explain the proposal and to receive suggestions as to how to proceed with the dissertation. At that time, the committee members approve the proposal or suggest changes be made before approval.

*French/francophone Studies*: Students must present their dissertation proposal within a year following the successful completion of their exams. The proposal will develop the individualized reading list presented for the PhD exams and will consist of approximately 30 pages explaining the topic, the choice of primary sources and the research methodology for the PhD dissertation. The proposal will be submitted to the members of the student’s intended Research Committee who will approve or suggest changes and corrections to it.

Once all members of the Research Committee have been identified and the proposal has been approved according to the procedures of the student's program, the Nomination of Research Committee form is completed and submitted online in One.IU, along with a one to two-page summary of the proposed research (NOT the whole dissertation proposal). **DEADLINE:** The Nomination of Research Committee form must be approved by the Graduate School at least six months prior to the defense of the dissertation.

4. **Writing the Dissertation**

The student then proceeds to research and write the dissertation. When finishing and formatting the dissertation, students should consult the Graduate School website (https://graduate.indiana.edu/thesis-dissertation/index.html) for requirements and deadlines.

5. **Completion and Defense of the Dissertation**

Once the dissertation is completed, an oral defense is scheduled. Each member of the research committee must receive a copy of the completed dissertation four weeks before the defense. In addition, an official announcement of the defense must be accepted by the Graduate School 30 days before the defense date. Announcements are initiated as eDocs through One.IU, and are posted
publicly through the UGS website. The oral defense of the dissertation is the final requirement for the degree, although revisions may be required before the dissertation can be submitted to the University Graduate School. The Graduate Student Services Coordinator can assist with scheduling, room reservations, and technological needs. Normally, an announcement of the defense is posted in hard copy and via email in the Department, but the student and dissertation advisor can jointly request that this additional publicity not be sent.

The Department maintains an archive of completed dissertations. Students are required to submit their volume to this library by sending a finalized .pdf version to the Graduate Student Services Coordinator.

Note: If the defense takes place in summer but the dissertation will not be submitted until the academic year, summer enrollment is not required. However, enrollment is required at the time of the submission of the dissertation, regardless of when the defense takes place. Advanced thesis credits, G901, are not regularly offered in the summer. If a student has semesters of G901 remaining to them, and plans to defend and submit the dissertation during the summer, they can request that G901 be added to the FRIT summer schedule. The Dean of UGS must approve this arrangement.

| Research statement, research exam, and dissertation proposal: A comparison |
|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| **Document** | **When** | **Objective** | **Length** | **Contents** | **What distinguishes them** |
| Research statement | MA students: same time as MA exams | Admission to the doctoral program | 2 single-spaced pages + 1 page for references | Description of interesting research question, review of literature + proposal for its investigation | Can be completely different from the research exam and the dissertation proposal. |
| | PhD Fast-track students: end of first year | | | | |
| Research exam | Same semester as PhD exams, completed after cloistered exams are passed | Completion of pre-dissertation requirements | 30-40 double-spaced pages (+ references & appendices) | Essay that demonstrates good knowledge of a specific research area, ability to critically assess what is known about it, and specific ideas for contributing to its further development | While there is considerable overlap between the research exam and the dissertation proposal, what distinguishes them is the emphasis on the review of the literature for the research exam and that on the specific methodology adopted for the dissertation proposal. |
| Dissertation proposal | Within 6 months of completing PhD exams | Detailed proposal for dissertation topic and methodology | 30-40 double-spaced pages (+ references & appendices) | Essay that situates the research question that will be developed in the dissertation and proposes specific methodologies | Specifically: Research exam:  
• 75% review of the literature  
• 25% lay-out of new study Dissertation proposal: |
Associate Instructor Positions

Associate Instructors (AIs) are part-time teachers of French/Italian in the Department and are responsible for teaching their own sections (normally one section in one semester and two in the other) under the guidance of the course supervisor. In French, there are distinct course supervisors for F100, F150, F200 and F250, while all other French language classes are supervised by the Director of Language Instruction. In Italian, all language courses are supervised by the Director of Language Instruction.

Conditions of Reappointment

Conditions of renewal of Associate Instructorships include the following:

- Good academic standing: a GPA of at least 3.2.
- Good teaching standards. This includes but is not limited to:
  - Meeting pedagogical effectiveness, as explained throughout the Orientation Week, and as requested by the Director of Language Instruction
  - Respecting the syllabus of the classes you are teaching
  - Communicating all necessary information and delivering course materials to the students
  - Preparing original and coherent lesson plans
  - Following suggestions for teaching improvement given by the course supervisor
  - Grading homework and assessments in a timely fashion
  - Giving effective and professional feedback to the students
  - Maintaining good midterm and/or end-of-semester evaluations
  - Maintaining professional behavior in regards to students, peers, and supervisor
- Good progress toward the degree:
  - Incompletes should be taken only as a last resort and be quickly converted into grades before the beginning of the next term (in the case of Incompletes taken in the spring semester, students are required to remove them within three weeks).
  - Students with one or more Incompletes on their record at the beginning of a semester may lose their Student Academic Appointee (SAA) status.
- The AI should be working to fulfill degree requirements at a reasonable rate (please refer to MA and PhD Exams section for the required timing).
- Good professional standards and ethical conduct. The Department will not renew the SAA status of students who do not maintain professional standards and/or ethical conduct.
- Associate instructors who do not meet pedagogical standards and the required GPA within the same semester will lose their SAA status.
Terminations based on the guidelines above may occur immediately or be in effect from the following term or academic year, according to the situation.

**Instructor Observation**

Each academic year, an AI is observed at least once by their course supervisor for the purpose of evaluating the instructor’s teaching. Observations may or may not be scheduled and are not limited. The course supervisor will then follow up with the instructor verbally or through a written observational report on the AI’s teaching. In the event of a hard copy report, the AI receives a copy of the report and a second copy is placed in the AI’s departmental file.

**The AI’s Role in Reappointment**

By a deadline set via email for late January or early February, AIs must inform the graduate student services coordinator as to whether or not they would like to renew their AIship for the following academic year. The AI’s response is a commitment to teach the following year. Such a commitment is necessary so that the Department can recruit a sufficient number of new AIs from its applicant pool. If there is an unforeseen change of plans after this date, the AI must present a valid reason for deciding NOT to teach the next year and for not having informed the Department earlier. **NO CHANGES IN CONTINUING AI PLANS SHOULD BE MADE LATER THAN APRIL 15.** This is the deadline for new AI applicants to accept or reject our funding offers. Therefore, if the Department learns later that a current AI will not continue the following year, an AI position may be left empty and a recruitment opportunity wasted.

**Term Limitations**

1. No more than two years of funding will be offered to MA students who will not continue on to the PhD.
2. Students who earn an MA degree in the Department and continue on to the PhD may receive a maximum of 5 years (10 semesters) of funding.
3. Students who have already received an MA degree at another institution and are pursuing the PhD in the Department may receive a maximum of 4 years (8 semesters) of funding, depending on how many credits can be transferred from the previous MA.
4. Students who switch from the French Linguistics to the French/Francophone Studies program (or vice versa) may be eligible to receive an additional semester or two of funding at the discretion of the Department.

**Note:** All forms of support by the Department and the University count toward the maximum semesters of support a student may receive. This includes internal and external fellowships, years spent as an exchange student abroad, and any Student Academic Appointment.

Funding may be suspended or revoked for students who receive a poor grade on their MA or PhD exams (“fail” or “low pass” in Italian, 0 or 1 in French linguistics, below a B- average for French/Francophone studies).

Students with previous graduate work at another institution or who have earned graduate credits at Indiana University before being appointed as Associate Instructors (AIs) in FRIT may receive fewer semesters of support from the Department. Only full time graduate students (enrolled in at least 6 credits per semester) will be considered for an instructorship.
Students with previous graduate work at another institution or who have earned graduate credits at Indiana University before being appointed as Associate Instructors (AIs) in FRIT may receive fewer semesters of support from the Department. Only full time graduate students (enrolled in at least 6 credits per semester) will be considered for an instructorship.

Considering the five-year limit on departmental financial support for PhD students, we urge students to complete all course work in three to four years and then directly begin work on the dissertation. Those entering with an MA degree should complete all course work within 2 years after admission to the PhD program.

On occasion, graduate students take teaching positions elsewhere or leave IU yet still have semesters of support remaining. The Department must agree in advance whether the student can utilize any remaining funding if the student returns to the FRIT Department. Once the student decides to stay away from IU for a second year, the Department no longer has any obligation to hold further funding. Exceptions may be made for a student who receives a prestigious external fellowship.

**Enrollment Requirements**

All new Associate Instructors are required to enroll in F/M572: Practicum in College French/Italian Teaching in the Fall semester and F/M573, Methods of College French/Italian Teaching in the first available semester (usually offered in the Spring). Exceptions can be made only if an equivalent course was taken elsewhere, in which case the student should confer with the DGS. All SAAs must be registered in a minimum of 6 credit hours of graduate coursework in FRIT during each semester of their appointment in order to maintain funding.

Ideally, Associate Instructors should not engage in more than 20 hours per week of activities related to teaching responsibilities, including class preparation, classroom teaching, office hours, curricular meetings, and co-curricular activities (film nights, Circolo, etc.) Any questions regarding teaching responsibilities should be referred to the Director of Language Instruction and the Director of Graduate Studies.

At the dissertation level, enrollment in six credit hours of F/M875 or G901 is required.

**Other Forms of Appointment**

**Graduate Assistant and Research Assistant Positions**

Occasionally, the Department has a few Graduate Assistant (GA) positions available as a form of SAA employment. These positions are subject to the same terms and conditions as the Associate Instructor positions and have the same stipend and employment status (see “Associate Instructor Positions” above). The professional expectations are also the same, except not focused on teaching. Graduate Assistants are assigned to a particular faculty member and assist the faculty member with event/conference coordination, special class assignments, and other duties as assigned. The faculty member that has been assigned a GA will select the student they would like to work with in consultation with the DGS and Chair.

The most common GA position available through the Department is Dr. Karolina Serafin’s GA. This student serves as the coordinator of Circolo Italiano and assists Dr. Serafin with other duties as
assigned to support the Italian Language Program. Dr. Serafin, in consultation with the DGS and Chair, chooses the student who will serve as her GA.

Sometimes, a member of our faculty will be allotted a Research Assistant (RA). These positions are subject to the same terms and conditions as the Associate Instructor positions and have the same stipend and employment status (see “Associate Instructor Positions” above). Faculty members who have been awarded an RA will assign the duties of the position to the student as well as select the student whom they would like to work with, in consultation with the Chair and DGS.

**French Club Coordinator**

The French Club Coordinator plans and executes all French Club events. Specific duties include:

- Hosts a bi-weekly French Table and initiates conversation in French with students who attend. Keeps the conversation flowing. Selects different topics of conversation as a starting point.
- Coordinates two cultural events each semester, such as a presentation from a native of a francophone culture (e.g. Quebec, Algeria, France, Belgium), a cheese tasting, group attendance of a French language opera or musical performance, or a Breton dance night. Organization includes consultation with the French Club Director, reservations, collection of money for paid events, publicity, etc.
- Organizes annual student talent show in French.
- Organizes French film series each semester, consisting of 4-5 films. Presents films with a 5-minute introduction and leads discussion afterwards.
- May organize other activities such as a creative initiative (book of poems, program newspaper, creative writing collection; drama or student video event) or a sports-oriented event during the course of the year.

The French Club Coordinator position is subject to the same terms and conditions as the Associate Instructor positions and has the same stipend and employment status (see “Associate Instructor Positions” above). French Club Coordinators are given a one-course release (they teach two courses per academic year instead of three). A call for applications for the position will be sent at the end of each spring semester.

**Writing Group Facilitators**

The Department organizes writing groups to help students set aside structured time to work on term papers, dissertations, or any other scholarly writing. The Department enlists the help of two graduate students to serve as Writing Group Facilitators (WGF), one for an MA group (focused primarily on term paper and conference paper writing) and one for a PhD candidates (focused on writing the dissertation, conference papers, and job market writing). WGFs coordinate the writing group meetings in consultation with Professor Alison Calhoun (DGS, French/Francophone Studies). A call for facilitators will be sent at the end of each semester for the following term. WGFs earn a small grant to help offset the cost of conference attendance or other minor research expenses.

**Summer Appointments**

**Selection of Summer AIs**

All AIs may apply to teach during the summer sessions in Bloomington. Generally, FRIT offers language courses during the First 6-Week Session and the Second 6-Week Session. The selection of AIs will be based on the pedagogical and academic performance of the candidate. Whenever
possible all students shall be granted at least one summer of support during their tenure and shall be granted summer assistantships thereafter as far as they are available, within the four or five years of funding they have been allotted. Students may apply for a second (or third) summer of support, but students with fewer summers of support will be given priority, provided that pedagogical and academic criteria are met. A call for applications for summer teaching is sent out in February.

**Stipulations:**

a) Students who are not returning in the next academic year should be granted a summer appointment only if the number of appointments available exceeds the number of eligible applicants for a given summer.

b) Students who accept another academic appointment (i.e. in the IEP or in the High School Honors Program) must forfeit funding in the FRIT Department during the same summer, unless FRIT has too few applicants to fill our teaching positions.

c) A student who applies for teaching in the summer before a leave of absence will be subject to having the lowest priority for teaching that summer.

**Summer Enrollment**

Summer AIs are not required to be enrolled in the summer. However, in order to be exempt from FICA (social security) taxes, summer AIs must be enrolled in 2 credit hours, or 1 credit hour if they are ABD. All summer sessions are counted together for this purpose.

Students enrolled in fewer than 6 hours will be charged at a higher rate if they use the services of the IU Health Center. To have access to the SRSC or WIC fitness centers without registering for any credits, a membership must be purchased separately.

**Summer Health Insurance**

AIs who did not have a Student Academic Appointment at 37.5% FTE or more during the preceding spring semester are not covered by the Academic Appointees health insurance plan during the summer. However, such AIs are eligible for health insurance coverage during the period of their summer appointment based on that summer employment. So, while an AI appointed for the previous academic year would have health insurance coverage through the end of July based on that appointment, an AI who is teaching during the Second 6-Week Session will have health insurance coverage for that 6 weeks of the summer only.

**Departmental Policies & Resources for Associate Instructors**

In addition to course guidelines received from the Directors of Language Instruction and course supervisors, there are certain departmental policies which all AIs should follow:

**Payroll**

Direct deposit to a U.S. bank account is required for all AIs. Pay deposits can be viewed in One.IU. Search for “Employee Center,” and then click the Payroll & Tax link.
The pay schedule for 2019-20 is as follows:

<table>
<thead>
<tr>
<th>Fall 2019</th>
<th>Spring 2020 (dates are tentative)</th>
</tr>
</thead>
<tbody>
<tr>
<td>September 6</td>
<td>January 31</td>
</tr>
<tr>
<td>September 30</td>
<td>February 28</td>
</tr>
<tr>
<td>October 31</td>
<td>March 31</td>
</tr>
<tr>
<td>November 27</td>
<td>April 30</td>
</tr>
<tr>
<td>December 20</td>
<td>May 11</td>
</tr>
</tbody>
</table>

**Parking**

Parking permits for EM-P and EM-S parking zones may be purchased on semester-by-semester or summer session basis during the terms in which the AI is appointed. Parking Permits can be purchased through the Parking Permit task found in one.iu.edu.

**Desk Copies**

The Department’s goal is to be able to provide each AI with a desk copy of each book needed for the course(s) they are teaching. However, since we have so many AIs, and since AIs and teaching assignments change each year, the book publishers may not always agree to send new desk copies. In this case, the faculty/undergraduate services coordinator will loan each AI departmental copies of the texts and materials needed for the course they are teaching. Departmental copies have a departmental tag and number in them so that the staff can keep track of our materials. Such materials are loaned to AIs for one semester (or summer session) and must be returned to the Department at the end of that period. AIs are responsible for returning departmental copies in good condition. Desk copies do NOT need to be returned to the Department.

**Office Hours**

AIs are required to schedule at least two hours per week in which to meet with students who seek extra help. These office hours should be the same time and location each week and should not be “by appointment only.” Office hours should be held at the AI work stations provided within the Department. If the need for additional privacy is anticipated, please sign up on the door of one of the two rooms specifically reserved for FRIT AIs for that purpose. Staff will notify AIs at the beginning of the semester which rooms those are.

**FERPA**

FERPA (Family Educational Rights and Privacy Act of 1974) is the federal law protecting the privacy of education records. All AIs must complete the on-line FERPA tutorial before their first semester of teaching at IU. The tutorial is located at ferpa.iu.edu.

Due to FERPA regulations, do not leave graded work in mailboxes or other accessible areas for students to pick up. Please distribute the work in class or, if this is not possible, leave it with a staff...
member in FRIT who can distribute it when students present their IDs. Also, please take care not to leave materials with sensitive information, such as class rosters or gradebooks, unattended at the AI workstations or other public places.

If a student requests a letter of recommendation, grades and other academic records cannot be discussed unless the student gives specific written permission to do so. The student must indicate what may be disclosed and to whom. The Departmental Administrator has a form the student can fill out and sign, or an email message from the student’s IU email account to the instructor is also sufficient. Instructors should keep such an email in their records for at least 1 year.

**Canvas & Tech Assistance**

Canvas is the course management system which assists faculty and students by providing course information and discussion opportunities on the Web. The system enables instructors to develop a website for each course being taught, within a set format.

We encourage instructors to explore the many features of Canvas at canvas.iu.edu. Training classes are available through the Center for Innovative Teaching and Learning (CITL). For questions regarding this system, please do not hesitate to contact your course supervisor or Director of Language Instruction.

Teaching and Instructional Resources: The Center for Language Technology (CeLT) is available for interactive language lab lessons. Students can also check out and view DVDs for class. In addition, CITL assists AIs in using Internet resources and other technology in their teaching.

Almost all IUB classrooms are equipped with the technology needed for teaching. If you need training in the use of this technology, or if you need technology not installed in your classroom, a request that equipment be delivered can be made by contacting UITS Classroom Technology Services.

**Prerequisites for Language Courses**

In order for a student to take a language course, they must have received a passing grade in the previous level of the language or must have tested into the course through the placement exam. In addition, the Department highly recommends that those students who received less than a C- in a language course not proceed to the next level in the language sequence.

**Auditing**

To audit a course means to pay only a small fee to attend the course meetings but not receive any formal evaluation of the course work. Auditing is not allowed in language courses unless special permission is obtained from the Chair. In upper-level literature, linguistics, or culture courses, auditing is allowed only with written permission of the instructor. Auditing requires enrollment and payment of the audit fee. See the Student Central website for more information.
Pass/Fail Option

Normally, language courses may not be taken Pass/Fail (P/F). Exception: students may take a language course P/F if they have completed their language requirement already in another language. (Required courses may not be taken P/F.) Graduate students who wish to take a course P/F should check with their DGS. Undergraduate students must obtain permission from the appropriate Dean in their school (College of Arts & Sciences, Kelley School of Business, Jacobs School of Music, etc.) or from the University Division Records Office (for students who have not declared a major).

Class Rosters

AIs may electronically access the class roster for the class(es) they are teaching during the course of a semester or summer session, either through One.IU or Canvas on the web.

Option 1: In One.IU, search for “Faculty Center” at the top of the page. In the Faculty Center, the classes you are teaching are automatically displayed; simply click on the class to see the desired roster.

Option 2: Go to canvas.iu.edu and log in. The classes you are teaching should appear at the top of the screen. Select the class you want, and when it comes up, select “People” in the left column menu.

About a month into the semester, it will be time for Early Evaluation Grade Rosters and Student Performance Rosters. The Early Evaluation Rosters are required to be completed for University Division students and high school students only, whereas the Student Performance Rosters must be completed for all students. The former provides lower-level students with feedback prior to midterm, as instructors have to assign a tentative grade. The latter (“Performance Rosters”) is a way to confirm who is really attending classes. Instructions will be sent by the Registrar’s Office about completing these rosters on-line.

Finally, at the end of the semester, instructions will be sent on how to enter final grades either via One.IU or Canvas on the web. For additional information about final grade entry, visit the Office of the Registrar website.

Dropping and Adding Classes

Undergraduate students who are not enrolled may ask to be allowed to add the class. During the first week of the semester, these students can add open classes using the web-based registration system. If the class is full, the student should place him or herself on the electronic waitlist. The waitlist runs for the last time on Thursday morning of the first week of classes.

After the first week of classes, students who want to add or drop a class should initiate an electronic document (edoc) in One.IU by searching for the “Late Drop/Add” function. The eDrop document is routed to the Department and to the dean’s office of the student’s school for approval, and then it goes to the Registrar’s Office, where the schedule change is made. The eAdd document is routed first to the instructor for approval, and then it follows the routing chain above. Therefore, no student will be added to a class after the first week without instructor approval.
Any questions about class enrollment levels or the student schedule adjustment process should go to Isabel as Scheduling Officer.

Students may drop courses until the middle of the semester and receive an automatic W grade on their transcripts. Please confirm each semester’s final drop date with the calendar of the Student Central office. After that date, students must have special permission from their instructor and from the Dean of their school in order to drop the course with a grade of “W.” If a student wishes to drop a course at a later date, a grade of “W” should only be granted in documented cases of prolonged illness or death in the family. You should discuss such cases with your course supervisor.

Self-Service Copies & Scanning
AIs have access to a multipurpose Ricoh machine, located on the third floor of GISB, which may be used to make copies or to scan documents to PDF. The machine should be used only for copies and scanning related to your studies as a graduate student and/or your work as an AI or research assistant. The machine is accessed by running your IU identification card through the attached card reader.

To scan, press the “scanner” button on the left, and then select “manual entry” to enter your email address where you will receive the scan. For IU email addresses, you only have to enter the first part, the username (not@iu.edu). After scanning the document, it will be sent via email as a PDF. Please note, scanning more than 15 or so pages will result in a document size too large to be sent and the scan will be lost. You should break up larger documents into several parts to scan separately. The machine remembers the last 10 email addresses to which a scanned document was sent, so if you scan frequently, you may not have to hit “manual entry,” but instead find your email address in the “recent” list.

The Ricoh can also act as a printer, and it should come up as an option on all the graduate student work station computers in the FRIT wing. You have to actually go to the Ricoh machine and swipe your ID card to “release” the print job. Print jobs can be released at any Ricoh machine in the building. The use of the Ricoh machines in our building will not subtract funds from your printing allotment as an IU student.

Print Jobs of Significant Size
Any print jobs that are more than a few pages should be sent to the Ricoh machine rather than the two smaller printers in the communal area. The Ricoh is more efficient in its use of toner and has more options such as color printing, sorting, and stapling.

Duplicating by Staff
Staff duplicating for Associate Instructors is limited to the duplication of course exams and course quizzes. Duplication of extra quizzes, handouts, or assignments for individual classes is the responsibility of the AI. For single-class language courses, exceptions may be made, and supplemental materials may be duplicated by the staff. Any material to be duplicated by the office staff must be submitted at least 3 business days prior to the date the material is needed.

Documents for staff to duplicate for your students should be uploaded to IU Box. Course supervisors and instructors teaching single-section courses will be automatically given access to a folder in their name in IU Box. Instructions:
1. Go to box.iu.edu and log in with your IU username and passphrase
2. Click on “Your Name-FRIT Workbox”
3. Click on the upload button in the upper right to upload your file
4. Put your cursor on the line with the file name. On the right end of this line, a box called “Share” will appear – click on this.
5. In the next dialogue box, click to enable the shared link
6. Click the icon that looks like an envelope next to the link
7. Enter two email addresses under “email shared link”: fritdept@indiana.edu and fritgs@indiana.edu (Please use BOTH)
8. Type in your instructions in the “message” section:
   • Course
   • Number of copies (for large courses, you can just say "one per student")
   • Whether it should be back to back or single-sided
   • Whether you need it in color
   • Date and time due
   • Any other special instructions
9. Click Send
10. You’ll get a pop-up message confirming that you sent the email.

Exam Copies & Final Exams
Duplicated exams for AIs are filed according to instructor, course, and class number in a locker designated at the beginning of the academic year. The code to this locker will be emailed to all AIs at the beginning of the year. Enter the code once to open the locker; no code is required to lock it. AIs are to pick up their exam copies from this locker before the class time(s) when they are to administer the exam, allowing themselves extra time in case of locker problems.

Do not share this locker combination with anyone who is not a FRIT instructor.

Additionally, the most recent set of graded final exams for AI-taught courses, which are filed by AIs at the end of each semester (or summer session) are located in a filing cabinet behind the staff workstations. We keep these on file for one year in case students want to contest a grade. Students can view their exams by presenting a photo ID to a FRIT staff member, but they cannot take the exams out of the FRIT staff area.

Course Evaluations
Course evaluations take place at the end of each semester, during the last week of classes. A notice will be sent via email to all students to fill out the evaluations via the OCQ system online (Online Course Questionnaire). Be sure to remind and encourage your students to complete the OCQ forms. It’s very important that a high percentage of students complete the forms for the results to be meaningful. A few weeks after grades are submitted, a link to the evaluation results will be emailed to the instructor. Course evaluations are kept on file electronically and are accessible to the Directors of Language Instruction. After an AI graduates from IU and loses access to IU computing accounts, pdf files of the evaluations can be obtained by emailing the Departmental administrator.
Incompletes

This section discusses awarding of Incompletes by AIs for students in their undergraduate language classes. For discussion of Incompletes that may be awarded by professors to graduate students, please see the appropriate section under Academic Policies & Procedures, above.

Grades of “Incomplete” are only given in language courses for documented cases of severe illness or death in the family that prevent the student from completing the course. In addition, the student must have a substantial portion of the course work completed and the work to date must be of passing quality. If a student’s situation may merit an incomplete, the situation must be discussed with the course supervisor.

If it is decided that the student will be granted an Incomplete, please report the details to the FRIT staff in order to register the Incomplete in the Department’s database. This serves as a reference for the Department and specifies what work must be done to fulfill the Incomplete, and what the deadline is for completion. After reporting the Incomplete to staff, simply enter an “I” on the grade roster.

To remove an Incomplete grade after a student has finished the work and to replace it with a letter grade, instructors should submit the change electronically. The electronic submission is the same as the eGrade Change system described below. Sometimes a student must sit in on part or all of the course again in order to fulfill the incomplete. In that case, the student’s second instructor for the course grades the student's work and then tells the original instructor what the final grade should be. The original instructor then submits the change of grade. Such arrangements should be made only after consulting the Director of Language Instruction.

Incompletes automatically turn into F's one year after they are awarded. As noted above, more stringent deadlines may be set by the instructor in consultation with the course supervisor or DLI.

Grade Changes

If a student’s grade needs to be changed after the final grade roster has been posted, this can be done electronically via the eGrade Change application. Log into One.IU and search for the “Faculty eGrade Change” function. Be sure to explain why the grade change was justified, and then the Chair or his/her delegate reviews the form before approving it.

Grade books

AIs must keep track of grades and attendance electronically and/or in a paper grade book. AIs must file their grade books (booklet or computer printout) with the staff at the end of each semester but may retrieve the booklets to use again at the beginning of the next semester if there is room remaining in the paper booklet. It is important that faculty supervisors and the Chair have access to grade books while instructors are out of town, so please DO NOT take grade books out of FRIT after the grading semester unless using it to mark down grades on this campus. Paper grade books are available for free from the Department.
Emergency Procedures

Associate Instructors are responsible for the following actions in case an emergency occurs during the class they are teaching.

- In case of fire, the fire alarm will sound. Lead students out the nearest exit and away from the building. Do not use elevators. If you are in GISB, you (and your students, if you are teaching) should gather on the main steps of the Wells Library. This is the gathering space for FRIT where we can confer together on next steps.
- In case of tornado, the local tornado siren will sound. Lead students into an enclosed area, away from windows and doors. Again, do not use elevators. Safe spaces on our floor of GISB are the restrooms, the mail room (3151), and the labs (3124 and 3129).

All graduate students should follow the same procedures themselves when not in class.

In case an instructor has a disabled student in their class, the AI is to assist that student as best they can, or ask a reliable fellow student to assist them. In case of fire on a floor without an accessible exit, a physically disabled student may only be left in a stairwell or hallway if helping the person all the way outside is impossible. Then emergency personnel should be informed of the person's location as soon as possible in order to fully evacuate them.

Opportunities for Further Involvement

**Graduate and Professional Student Government:** GPSG is a campus-wide body which speaks for graduate student interests on various university committees, provides graduate student grants, and sponsors social gatherings at various times during the academic year.

Within the Department there is also an active Graduate Student Organization, which lobbies for graduate students' interests within FRIT. The departmental GSO organizes a biennial colloquium which gives graduate students the opportunity to share their research and learn from guest speakers. The next colloquium will be in Spring 2021. Students can get involved in the GSO by becoming a GSO representative and/or attending GSO meetings. One GSO representative each from the French Linguistics, French/Francophone Studies, and Italian graduate programs serve as liaisons to the faculty and attend the non-reserved portion of faculty meetings. Watch for more information via email.

**Student-Faculty Forum (SFF)**
The departmental Student-Faculty Forum meets throughout the semester to give students and faculty the opportunity to present their research for discussion in an informal setting. This series provides graduate students with an opportunity to practice presenting their research and receiving feedback, and allows them to hear about current research conducted by their professors and colleagues. Questions about SFF should be addressed to Professor Liz Hebbard, who is the program facilitator.

**French Club & Circolo Italiano:** In each of these clubs, students interested in the language and culture get together regularly during the academic year for conversation, music, games, and refreshments. Additionally, each club hosts film nights and parties for special events, such as Mardi Gras. Events and activities are open to grads, undergrads, faculty, and members of the Bloomington
community. The success of these clubs and associated events depends on IU student (both graduate and undergraduate) involvement.

**Social Media:** The Department of French and Italian, the Italian language program, and the French Club all have a social media presence.
